

pLink Forge

You didn't come this far to only come this far. Forge on.

Each pLink Forge brings together a small group of like-minded professionals intent on improving their leadership, courage, and collaboration. Forge members seek inspiration, guidance, connection, and perhaps most of all, ongoing accountability to strive. The Forge provides all of this, ensuring each member **feels supported and not alone, throughout their leadership journey.**

THE LEADERSHIP JOURNEY

While the core competencies of highly effective leadership remain the same over the course of The Leadership Journey, their application must change as a leader's context and complexity evolve. Success at each new stage requires not just developing new skills but also a true **leveling up** of mindsets and behaviors.

Because predictable challenge points arise along the Journey, Forges offer a proactive, forward-thinking strategy to navigate the journey without getting stuck.
